STAN MORA

Software Engineer | Data Science (ML/AI) & Cloud

@stanmoore223@protonmail.com ☎0998605857 ●Quito, Ecuador
inlinkedin.com/in/gandhi-stanislaw-mora-guevara-283a97a5 ⌥github.com/GadielStanislaw

SUMMARY

Software Engineer with 8+ years of experience in software development, DevOps and Machine Learning, currently completing a Master's in Data Science at USFQ. Experienced in multi-cloud architecture (AWS, GCP, OCI, Azure), NLP and production ML systems. Research interests at the intersection of artificial intelligence and quantum computing, including quantum machine learning (QML). Committed to innovation and open source.

EXPERIENCE

Software & DevOps Developer

PENTASEC

◷ Dec 2018 – Present ● Quito, Ecuador

- Lead requirements gathering and project planning using agile methodologies (Scrum, Kanban).
- Analyze and design relational systems and application architectures.
- Deploy applications through CI/CD pipelines with secure-coding practices, streamlining release cycles.
- Design AWS cloud architectures for web applications, integrated with on-premises VMware ESXi infrastructure.

Machine Learning Developer & Researcher

Bayteq

◷ Dec 2019 ● Quito, Ecuador

- Applied research in Machine Learning and Deep Learning with Python, scikit-learn, pandas/NumPy, TensorFlow and PyTorch.
- Developed NLP models for text classification and automated response generation.
- Built and deployed automated assistance bots and agents, integrating NLP models into production workflows.

Functional Analyst

Transfiriendo

◷ Feb 2018 – Jul 2018 ● Quito, Ecuador

- Gathered requirements and performed software analysis and design.
- Provided customer support and software maintenance.

Information Manager

Escuela Politécnica Nacional

◷ May 2017 – Sep 2017 ● Quito, Ecuador

- Managed and maintained the faculty's information records.

EDUCATION

Master's in Data Science

Universidad San Francisco de Quito (USFQ)

◷ In progress ● Quito, Ecuador

Systems Engineering (Computer Science)

Escuela Politécnica Nacional

◷ Graduated Jul 2017 ● Quito, Ecuador

ACHIEVEMENTS

★ **Clear Minds Award**
For the development of optimization algorithms

⌂ **Graduation Distinction**
First in the Faculty to graduate through the scientific-research track at EPN

SKILLS

Data Science (ML/AI)

Python | scikit-learn | pandas / NumPy | TensorFlow / PyTorch | NLP | AI Agents | MLflow / Kubeflow | CI/CD for ML

Cloud & DevOps

AWS | GCP | Azure | OCI | VMware ESXi | CI/CD | Secure Coding | Git | Jira

Programming

Java | JavaScript / HTML | PHP | C / C++ | PL/SQL | R | LaTeX

Research Interests

Quantum Computing | Quantum ML | Optimization | Numerical Simulation

LANGUAGES

Spanish ●●●●●
English ●●●●●

Research Assistant

Escuela Politécnica Nacional

◷ Sep 2015 – Nov 2016 ● Quito, Ecuador

- Conducted research in numerical acoustic simulation.
- Developed optimization techniques for acoustic absorption coefficients in enclosed-space models.
- Researched machine learning algorithms for data projection and forecasting.
- Edited manuscripts for research publication.

Developer

Atrums IT

◷ Sep 2014 – Mar 2015 ● Quito, Ecuador

- Web and ERP development.

PUBLICATIONS

Mora, G. (2017). Optimization of absorption coefficients for numerical acoustic simulation. *Latin American Journal of Computing*, *Faculty of Systems Engineering*, 1, 1–13.
